To whom it may concern,

I am writing a letter of support on behalf of Coast Unified School District. We have worked with Verizon for over ten years and their professionalism and partnership has been extremely wonderful. We are praising the virtues of the reliable state of the art 21<sup>st</sup> century communications capability that Verizon's Wireless network has provided.

We have a Verizon cell tower at our high school that has been stellar and helped with safety/emergency issues, ( no signal until Verizon helped us out). Coast Unified School District is a strong supporter and partner with Verizon, we applaud their efforts here in Cambria.  
Please call me directly with any questions.
